MERCHANDISING

Our merchandising team is comprised of professionals that understand the importance of style and design; they manage the quality process from its inception until delivery. Instead of simply sourcing products, our merchandisers are committed to understanding the customer's products and objectives to add real value in producing merchandise you can take pride in.

A magnifying glass with a silver rim and a black handle is positioned over a fabric with vibrant, multi-colored horizontal stripes (red, orange, yellow, green, blue). The lens of the magnifying glass is sharply focused on the fabric, highlighting the texture and colors. The background is a soft, out-of-focus teal gradient.
